

PROJECT OVERVIEW:

TITLE : FlavourFusion : “ world of recipe’s”

DESCRIPTION:

FlavourFusion is an online platform where people around the world come together to share their recipe creations, discover new flavor’s , and celebrate the art of cooking .

This platform is all about sharing the joy of cooking and exploring the recipes users can easily upload their favorite recipes , and other users can search for the recipes through the name of recipe or with the ingredients .

SCHEMA:

```
const mongoose = require('mongoose');

const adminSchema = new mongoose.Schema({
  username: {
    type: String,
    required: true,
    unique: true
  },
  password: {
    type: String,
    required: true
  }
}, { timestamps: false });

const recipeSchema = new mongoose.Schema({
  recipeName: {
    type: String,
    required: true
  },
  Ingredients: [{
    type: String,
    required: true
  }],
  Procedure: {
    type: String,
    required: true
  },
  Tips: {
    type: String,
    required: false
  }
});
```

```

    },
    img: {
      type: Buffer
    }
  }, { timestamps: false });

const Recipe = mongoose.model('Recipes', recipeSchema);
const Admin = mongoose.model('AdminLogin', adminSchema);

module.exports = { Admin, Recipe };

```

ROUTERS:

Creating a acc:

```

router.post('/create',(req,res)=>{
  const { user , pass } = req.body;
  console.log(user+" "+pass);
  res.send("sucess!!");
  adminAdd(user,pass);
})

```

Adding a recipe :

```

router.post('/addRecipe',(req,res)=>{
const { recipeName, Ingredients, Procedure, Tips } = req.body;
const img = req.files.img;
console.log(recipeName+" "+ Ingredients+" "+Procedure+" "+Tips+" "+img);

recipeAdd(recipeName, Ingredients, Procedure, Tips, img);
  res.send("recipe added successfully !!");
})

```

Another routers are required to search the recipe , fetch the recipe , save the recipe.
